

Synapse

A detailed 3D illustration of a synapse. A large, semi-transparent axon terminal is shown on the left, containing numerous purple spherical vesicles. Some vesicles are shown in the process of fusing with the presynaptic membrane, releasing their contents into the synaptic cleft. The cleft contains several small, purple spherical molecules. On the right, a portion of a postsynaptic cell is visible, showing a cell membrane with receptors and a myelin sheath. The background is dark with faint, glowing neural structures.

From the Secretarial Desk

Dear All ISNACC members,

Greetings!

In the recent times you would have noticed many meetings happening all over India on neuroanaesthesia and neurocritical care related topics. The interest in neuroanaesthesia is growing by leaps and bounds. It is really very heartening to see the growth. In this context, we would like to inform everyone that an anaesthesiologist from Malaysia has joined the ISNACC PDF course at park clinic in Kolkata. It is one of the proud moment for our society. Also, it places more responsibility on our shoulder. We have to maintain the standards of our course training.

The society website has been redesigned. It looks more refreshing now. Thanks to Dr Girija Rath for the work. Our society is in the social media also. i.e. Facebook and twitter. This year, we have put all the conference photographs on our website. This ensures everybody can watch all the photographs and it was also allowed to download. All the participants can freely download their photographs. We hope, the organizers of the future conferences also replicate the same.

The preparations for the annual conference at Chandigarh are going very well. We request all the members to register for the conference at the earliest. Lastly I request all the members to encourage all the anaesthesiologists doing neuroanaesthesia work to become the members of our society.

With Best Regards,

Dr. VJ Ramesh
Secretary

Dr. M Radhakrishnan
Treasurer

Share with us your experiences, achievements, or any other story of success!

Message from ISNACC President

Dear friends,

Dear Members, colleagues, well-wishers & friends; kindly accept my sincere greetings as President of our beloved society. I am happy that July, 2016 issue of our society newsletter the “**Synapse**” is in your hands. Thanks for the efforts of our Secretary Prof VJ Ramesh, treasurer. Dr M Radhakrishnan and other colleagues from the ISNACC Executive Body that we are able to publish these Newsletters twice a year, giving news, views and updates on matter of concern to us, including salient National & International Conferences & Meetings. .

I take this opportunity to remind my colleagues in the ISNACC EC to kindly give a serious thought to the issues of immediate interest to us, such as, completion of DNB/ FNB (Neuroanesthesia) curriculum, neurocritical care courses & curricula, strengthening our collaboration with other National and International Societies etc. In particular, we must continue working towards increasing our bilateral cooperation and interactive presence in Overseas Neuroanaesthesia & Neurocritical Care academic meetings. We hope to discuss about these issues in the forthcoming midterm Executive Committee Meeting scheduled on Sept 11, 2016, at PGIMER, Chandigarh.

I derive great pleasure in inviting you all to please get involved in our Society-related activities and send to us your valuable suggestions and feedback, helping us in **performing our responsibilities effectively and as per your expectations.**

The organizers of the 18th ISNACC Annual Conference at PGIMER, Chandigarh are working hard towards success of the conference scheduled on February 24-26, 2017. Hope to meet you all at Chandigarh, if not earlier.

Long Live ISNACC

Jai Hind!

Dr LD Mishra, MBBS, MD, PhD, FICA

Report of the 9th International Update on Neuroanesthesia and Neurointensive Care EURONEURO 2016

The 9th International Update on Neuroanesthesia and Neurointensive Care (EURONEURO 2016) was held in Barcelona, Spain, from April 14–16, 2016. The conference venue was Hotel Barcelo Sants. This three-days scientific extravaganza was attended by over 650 delegates from across the globe. This conglomeration of renowned faculties from all disciplines of neurosciences was a unique event in itself. The scientific programme was well planned and included lectures and workshops ranging from topics related to the basic research in neurosciences, to those related to clinical practice. A special session on Nursing Neurocare was also arranged during the meet. Participants had the opportunity to present their research papers which were judged by a panel of experts. An overwhelming participation was seen by the ISNACC members, with nearly 24 abstracts submitted this year, which is more than that observed in the previous Euroneuro meet.

Some of the topics that were covered in this meeting were Mapping the anatomy of (un)consciousness, Basic Neurosciences, Intraoperative pharmacological brain protection,

Engineering to measure effects: designing new devices and understanding processes, Surgery and Anesthesia at the extreme of ages: consequences for the brain, New brain monitoring perspectives, “Cognitive reserve” and Postoperative Cognitive Dysfunction (POCD), Consciousness, ECC, ECMO, CPR and the brain, Cerebral monitoring at the bedside, Neurophysiology Monitoring in the perioperative setting and critical care, Quantitative MRI in brain injury, Improving outcome in traumatic brain injury, Coagulation, neurosurgery and neuroangioradiology, Decompressive craniectomy, Ventilation strategies in Neurocritical Patients, Update in vascular Neurocritical ischemic patient management, Hot spots in endovascular therapy, New approaches in neurosurgery and chronically neurological diseases, Initial Attention to Neurocritical Patient, Education in Neuroscience Specialists and Rehabilitation after Acute Brain Injury.

The gala dinner at the Sant Pau Art Nouveau Site was an evening to remember. The memories of this beautiful city with the Gaudi architecture and facing the Mediterranean Sea will remain fresh for a very very long time.

Hemanshu Prabhakar

Invitation to the 18th Annual Conference of ISNACC, Chandigarh, 24th – 26th February 2016

On behalf of the Department of Anaesthesia and Intensive Care, Post Graduate Institute of Medical Education and Research (PGIMER), Chandigarh, it gives us immense pleasure to welcome you all to the 18th Annual Conference of Indian Society of Neuroanesthesiology and Critical Care (**ISNACC 2017**) to be held at PGIMER, Chandigarh on 24th-26th February 2017.

ISNACC 2017 will feature an academic feast as "**Challenges in Neuroanaesthesia with Focus on the Future**". It has been designed to provide an innovative and comprehensive overview of the latest research developments in the management of Aneurysmal SAH. We have planned an International Symposium on Aneurysmal SAH on 26th February 2017. With overwhelming success in previous years, this academic feast cum scientific extravaganza will update your knowledge and skills in various aspects of neuroanaesthesia and neurocritical care. The highlights of the plenary scientific session will consist of stimulating interactive session including PBLDs, Panel Discussions and Pro-Con sessions on Paediatric Neuroanaesthesia, Traumatic Brain Injury and Neurosurgical Emergencies.

Comprehensive workshops on Neuromonitoring, Ultrasonography in Neuroanaesthesia, Echocardiography and Management of Difficult Airway Scenarios will also be an integral part of the scientific schedule and will be held on 24th February 2017. A video session on techniques of "Recent advances in the Field of Neuroanaesthesia" will be a special attraction. We are also planning to have focused sessions on Simulation Based fluid Management. Quiz competition and presentation of scientific research as a poster, and podium presentation will add to this academic bonanza.

Many distinguished neuroanaesthesiologists, neurointensivists, neurosurgeons and neuroradiologists from various corners of India and abroad will be participating in this conference. We assure you that ISNACC 2017 at PGIMER, Chandigarh will be a major scientific event and academic feast and we look forward to your whole hearted participation and sincerely hope that it proves to be an enriched intellectual experience for all the participants.

You can contact us at isancc2017@gmail.com and visit our website www.isnacc2017.org.in for all the information.

Announcements

Travel/ Visit Grant

ISNACC provides Travel/Visit Grant to suitable candidates to either visit one of the premier Neurosciences (Neuroanaesthesiology) Centers abroad or to present scientific paper(s) in an International forum. The last date for submission of application will be July 31 and December 31. A fixed sum of Rs.25,000/- (6 candidates per year) will be awarded to candidates who must fulfill the following criteria -

- Should be a life-member for more than a year at the time of application.
- He/she should not have availed the grant from ISNACC in the previous 2 years.
- Must submit the abstract of the scientific work at the time of application.
- Must submit the attendance and participation/presentation certificate within 15 days of attending the conference

Research Grant

ISNACC awards research grant to suitable candidates to carry out clinical research in the field of Neuroanaesthesia and Neurocritical Care in India. A fixed sum of Rs.50,000/- [2 candidates per year] will be awarded to candidates who fulfill the following criteria –

- Should be a life-member for more than a year at the time of application.
- He/she should not have availed the grant from ISNACC in previous 2 years
- Should provide a copy of Ethics Committee approval and the protocol (both soft and hard copy)
- The candidate must provide the estimated expenditure details along with the application.
- Financial assistance from other sources must be disclosed
- The proposal would be scrutinized by the education committee of ISNACC and its decision would be final.
- Should complete the study within 2 years of obtaining the grant and must produce the statement of expenditure.
- Should present the results of the research in the Annual conference of ISNACC in the same year as completion of study or within one year of completing the study.
- Should acknowledge ISNACC as the funding source in all forms of presentation / publication.
- Last date for submission of application is December 31.

Application form may be downloaded from the website (www.isnacc.org)

18th Annual Conference of Indian Society of Neuroanaesthesiology and Critical Care & International Symposium on Aneurysmal SAH

24th-26th February, 2017

PGIMER, Chandigarh, India

Highlights

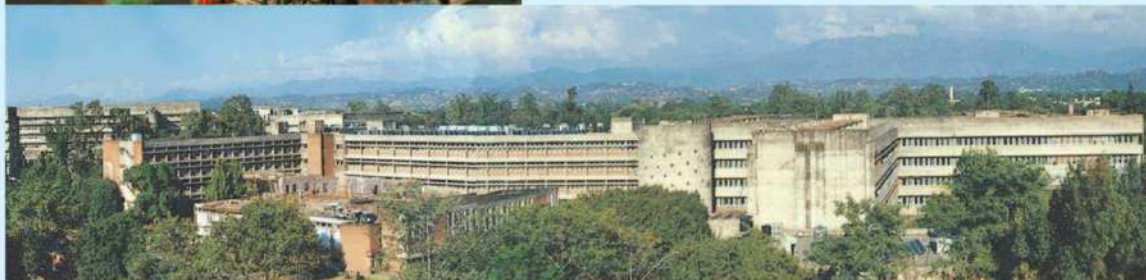

- International Symposium on a SAH
- Workshops :
 - Neuromonitoring
 - Ultrasound in Neuroanaesthesia
 - Echocardiography
 - Difficult airway management
- Video-session on techniques of recent advances in Neuroanaesthesia
- PBLD, Panel discussion, Pro-Con Sessions
- Simulation based fluid management

Neuroanaesthesia Update 2016

Date : 30 September - 2 October 2016

Venue : JLN Auditorium, AIIMS, New Delhi

Organised By

Department of Neuroanaesthesiology & Critical Care
All India Institute of Medical Sciences, New Delhi

Programme Highlights

- Live Demonstration from OR
- Pannel Discussion
- Workshop on Neuromonitoring
- Workshop on Designing a Study Protocol
- Guest Lectures
- Simulation in Neuroanaesthesia
- Interactive Poster Session

Registration Fee

	Two Workshops on 30th Sept	After 15th July 2016
Resident	Rs. 500/-	Rs. 3000/-
Delegate	Rs. 500/-	Rs. 3500/-
